

Formulation Sample

Hassle-Free Dry Process Foundation

Formulation No.: FD23002W

This powder foundation is made of powder ingredients only and has a creamy feel despite a dry process. The production method is very simple and helps to reduce the variation in the quality of the final product. **ADVANCED AMP NT20** moderately hardens this powder foundation, and **OIL DELIVERY POWDER 20 DSi C** provides the bare minimum of oil to make the feel creamy and prevent the powder from scattering. No talc is used.

Product Name	INCI Name	wt%
A	OIL DELIVERY POWDER 20 DSi C	25.0
	Amylopectin (and) Dimethicone (and) Octyldodecanol	25.0
	Mica	23.2
